JANEL RODRIGUEZ

Janel Rodriguez founded Forever 15 Project after suffering the loss of her 15-year-old son Noah due to Fentanyl poisoning. Through this organization, Janel works tirelessly across the nation to bring awareness to the Fentanyl crisis by sharing her story.

“He had tons of personality,” she said. “He loved to play pranks, tell jokes. He was one of those hide in the corner and pop out and scare you types.”

Rodriguez now advocates within her community on the dangers that come with fentanyl, an opioid substance.
